

Ring Size Chart

Our sizes are subject to a tolerance of +/- 0.25mm. In normal language, this means that due to the polishing process, the ring you receive could be exactly as the quoted size, or around 2 average human hairs larger or smaller. Which is a tiny possible variance, but we thought we should let you know.

US Size	Inside Diameter (mm)	Inside Circumference (mm)
6	16.51	51.87
7	17.35	54.51
8	18.19	57.15
9	18.89	59.34
10	19.84	62.33
11	20.68	64.97
12	21.49	67.51
13	22.33	70.15
